

Welcome New ICDA Associate Member!

Possehl Erzkontor GmbH Co KG. - October 29th, 2015

Armin Zander,
Trader raw materials,
Possehl Erzkontor
GmbH Co KG.

What are your expectations as a new ICDA Member?

“Possehl Erzkontor expects to get an improved overall understanding of global production and material streams as well as for the global metallurgical activities and their influence on overall pricing. We like to enlarge our network in all directions also offering our expertise for the markets and industries we are successfully active in for decades now.”

How does your company consider its involvement in ICDA?

“We have a substantial expertise in trading various qualities of refractory coarse Chrome ores as well as various concentrates for the refractory and foundry industry. Our global company structure with representative offices and subsidiaries allows us to have access to many markets and much more industries we today supply to. We can offer support in form of general market information up to co-operations and partnerships for regions and markets.”

Brief Introduction of Possehl Erzkontor GmbH Co KG.:

Possehl Erzkontor GmbH & Co KG is a trading company which celebrated its 100 years anniversary in 2015. We are trading a wide range of ores and industrial minerals for a number of industries, as core business we see the refractory industry, foundry industry, steel, construction, break lining, welding, glass etc. We are active in free trade as well as agent for producers of high quality raw materials. Abt. 160 employees are working for PE worldwide. Since 2014 PE is a division of the Hamburg based Cremer Group of companies, before PE was part of the Possehl Group based in Lübeck. Our yearly turnover reads abt. EUR 300 million Euros.
