What motivated Chongqing Changyuan Group to join ICDA?

ICDA is the reputable community for networking chromium industry professionals. Being an innovative manufacturer with breakthrough in chromium chemical production technologies, Chongqing Changyuan Group would be honored to join ICDA and share our experience and values, so as to make contribution in market developments.

What do you expect from your ICDA membership?

Joining ICDA and connecting to other members allow Chongqing Changyuan Group to be entitled to receiving first-hand intelligence of chromium market. The ICDA conference and publications are great channels for communication within the chromium community.

Brief introduction of Chongqing Changyuan Group.

Chongqing Changyuan Group Limited is an award-winning chemical manufacturer in China with over 50 years of history. We have multiple manufacturing facilities in China, with a total output capacity of more than 100,000 Metric Tons per annum. By incorporating innovations and proprietary technologies into the manufacturing of Chromium chemicals, we strive to provide better products while keeping our planet green.

Our current specialties in chromium chemicals span across sodium chromate, sodium dichromate, chromic acid and chromium oxide green. By rethinking and questioning the key processes from the ground up, we are opening a door to an uncharted territory in chemical productions.
