

Welcome New ICDA Affiliate Member!

Tenova Pyromet - Mining & Minerals (Pty) Ltd. - January 21st, 2014

Chris Oertel, Managing Director, Tenova Pyromet

What motivated Tenova to join the ICDA?

“The ICDA provides valuable and accurate market related information which can be utilized to interpret what the market is currently doing and predict what it will be doing next. This forms part of Tenova Pyromet’s (Tenova) comprehensive Market Intelligence program to ensure that we are always on the forefront of new developments within the respective markets.”

Zak van der Westhuizen Senior Technical Sales Engineer, Tenova Pyromet - Mining & Minerals Division

What do you expect from your ICDA Membership?

“The ICDA has a well-known and reputable list of members. Most of these are companies, Tenova is busy dealing with or has dealt with in the past. We believe that through our membership with the ICDA, we can strengthen our current relationships with these companies as well as build some new ones. The publications and conferences of the ICDA are brilliant platforms for Tenova to showcase new and innovative technologies within the industry to ensure a sustainable future as well as strengthen the Tenova brand.”

Brief introduction of Tenova Pyromet:

Tenova is a leader in the field of smelting technology and equipment. Our range of capabilities include feasibility studies, technology development, engineering design, equipment supply, construction, commissioning and the provision of turnkey smelter plant. These services are provided to clients worldwide. Over a period of 67 years Tenova has provided dependable and innovative technology, high quality equipment and sound project execution. Our core knowledge and expertise has been developed world wide in the ferroalloy, platinum and base metals smelting industries. An extensive track record of successful furnace operations makes Tenova a credible choice for smelter plant and projects.

Patented Tenova technology
