

Global production (Mt)

Cr Ore

8.11
Mt

↓
- 5.7 %

Cr ore was down in Q4 due to a reportedly low Indian output and a drop in South African output due to logistical constraints. Trade figures are liable to vary as customs reports continue to come in.

FeCr

4.06
Mt

↑
+ 22 %

FeCr production was up in Q4 as production cuts were lifted in China and South African production was up despite persistent issues with energy and logistics. Trade figures are liable to vary as customs reports continue to come in.
